PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with a strong foundation in **Java programming, Object-Oriented Programming, SQL, software development fundamentals, problem solving, debugging, and software testing**. Hands-on experience developing academic projects using Java, Spring Boot, Hibernate, .NET, MySQL and REST APIs. Familiar with SDLC, software requirements, basic software design, Git/GitHub, Agile development practices, and AWS cloud services including EC2, S3, and RDS. Strong analytical, communication and teamwork skills with familiarity in using **AI tools** to support learning, coding, debugging and problem solving.

TECHNICAL SKILLS

Programming C#, Java, SQL, JavaScript, HTML, CSS, React	Software development & Testing SDLC, STLC, Software Requirements, development, Testing
Database MySQL, PL/SQL, PostgreSQL	Core Concepts OOP, Collections, Exception Handling, Testing Fundamentals, Test Cases, Debugging, Problem Solving
Build & Version Control Git, GitHub, Maven, Docker, CI/CD, Linux	Backend Technologies .NET, Spring Boot, Hibernate/JPA, REST APIs
AI Tools GitHub Copilot, Amazon Q, Gemini	Cloud AWS EC2, S3, RDS, AMI

EDUCATION

Bachelor of Technology (Information Technology) G H Raisoni College of Engineering & Business Management, Jalgaon CGPA: 7.97	2022 – 2026 Jalgaon
12th, M J College, Jalgaon Percentage 70.17	2020 – 2022 Jalgaon
10th, Vidya English Medium School Percentage 86.20	2019 – 2020 Jalgaon

PROJECTS

- Food Delivery Backend System, Java, Spring Boot, PostgreSQL, REST APIs, Hibernate, Maven**
- Developed a backend application using Java and Spring Boot following a layered software architecture.
 - Implemented modules for user management, restaurants, menu items, cart, orders and order tracking.
 - Designed REST APIs and performed CRUD operations using appropriate HTTP methods.
 - Integrated PostgreSQL using Hibernate/JPA for database persistence and relational data management.
 - Implemented input validation and exception handling to improve application reliability.
 - Tested REST APIs using Postman and debugged application issues during development.
- Personal Portfolio Website, React.js, JavaScript, CSS, Git, GitHub, AWS**
- Developed a responsive personal portfolio website using **React.js, JavaScript, and CSS**.
 - Created reusable components to showcase projects, technical skills, education, and contact information.
 - Implemented responsive design for desktop, tablet, and mobile devices.
 - Managed source code using **Git and GitHub** with version control and deployment workflow.
 - Deployed and hosted the application on **AWS**, gaining practical experience with cloud hosting and deployment.

TRAINING

- Java Full Stack Intern, QSpider** 2025 – 2026
- Java & OOP:** Hands-on training in Core Java, Advanced Java, Object-Oriented Programming, Collections, Exception Handling and Java programming fundamentals.
 - Database:** Practical experience with MySQL, PostgreSQL, Oracle SQL, PL/SQL, database operations and relational database concepts.
 - AWS:** Gained practical exposure to AWS Cloud services including EC2, S3 and RDS, along with basic application deployment and Linux fundamentals.
 - Spring & JPA/Hibernate:** Developed backend applications using Spring Boot and Hibernate/JPA, following layered architecture and applying ORM concepts.
 - REST & Testing:** Built and tested REST APIs using Postman and implemented CRUD operations with database integration.
 - Completed internship training and implementation in Java Full Stack development.

CERTIFICATIONS

- Java Full Stack Development Certification — QSpiders
